

CP-SAT Remote Exam instructions 1.1

CP-SAT is the number 1 certification in Selenium and is the only global certification exam where assessment is practical. Thanks for choosing the best certification in Selenium.

Prerequisites for taking remote exam

1. Please ensure that a good speed internet is available for you during the exam
2. Please download Microsoft Teams software for the relevant Mac/Windows OS from the below URL <https://www.microsoft.com/en-in/microsoft-365/microsoft-teams/download-app>
3. Before the examination begins you have to join the MS Teams meeting - meeting link that will be provided you 24 hrs. in advance.
4. The MS Teams meeting would be required to be kept **on during the entire duration** of the exam.
5. You need to turn **ON your video and share your screen** during the entire duration of the examination.
6. You will be made presenter of the meeting and your screen will be monitored by an ATA invigilator
7. For the Part 1 (Theory exam) you should have **Chrome browser installed** on your machine.
8. You will be required to do all the necessary setup and configurations on your own desktop or laptop which will be required to take the Part 2 (Practical Exam)
9. You are also not allowed to communicate with any other person other than the invigilator during the entire duration of the program. No phone, no chat or any other means of communication will thus be allowed
10. You **are not allowed** to use any form of internet or paper (book) help during the Part 1(Theory exam)
11. You will be **allowed** to refer any printing material or internet help sites during the course of the Part 2 (Practical exam)

Rescheduling Terms and Conditions

1. There would be NO rescheduling charges if the exam is rescheduled before 48 hours of the date of the exam.
2. In the situation that the participant requests to reschedule the exam within 48 hours of the date of the exam or during the exam itself, the exam can be rescheduled **by paying 20 USD / INR 1400 + taxes**
3. In a situation that the internet speed (slow or not available) does not support the execution of the examination (e.g. MS Teams meetings are getting disconnected or the exam question sites are not working at the participant end). The exam will have to be rescheduled for a subsequent day in this case. Rescheduling charges of 20 USD taxes would **NOT** be applicable in this situation. (Any issues must be immediately brought in notice to the invigilator and the same should be communicated to the support id)
Note: The next exam slot will be confirmed based on the availability of the same
4. All queries should be sent to CPSATSupport@ATAEvents.org

Here are the instructions for the taking the exam

1. Go to URL: <https://www.gaugeonline.com/>
2. Click on "Sign In"
3. This will open a new tab, wherein the credentials must be entered **(please ask your invigilator for the username and password)**
4. Account code to be entered: **agilein123**
5. Once the login is successful, participants must click on "Take a Test"
6. There are two exams – a theory exam and a practical exam. You should start with the theory exam and take a maximum break of 10 minutes between two exams
7. Theory Exam: 40 Questions / 60 minutes – **Passing score: 24**
8. Practical Exam: Number of questions may vary / 150 mins: **Passing score: 36**

Practical Submission should have the following:

1. All Java files
2. All Screen shots
3. All Data Files
4. Reference of Chromedriver and firefox driver versions used
5. Pom.xml
6. If Pom.xml is not there you have to share all the jar file versions used as per your program

All the above files should be zipped to a single file

File name should be "**CandidateName_dateofexam**".zip

The file should be sent to cpsatExams@ATAEvents.org

The file should be sent **within 5 minutes of practical exam getting over.**

Best Wishes ATA
